Subject: RE LOS OSOS SEWER

Bruce, we are in support of the Los Osos sewer project. I know that it will improve the quality of the water in LO tremendously and cant wait until it is connected! It has been a long time coming and we don't need any more delays.

Susan Chandler

Subject: Sewer and roads

I fully support the construction of the treatment of the sewer plant as proposed.
Don and I are grateful for your hard work on behalf of the Los Osos sewer system.

We do plead for a complete resurfacing of Lovr/Pechora valley road which has become virtually impassable with the many holes and uneven spots. We truly hope they will repave the entire road from Cabrillo Estates through town now that they have completed all the piping. ASAP!

Sincerely,
Anneka Scranton

Comments or questions (8,192 characters max):	<p>I have lived in Los Osos since 1986 and reside @ Mar Vista Dr. I wish to strongly endorse the county process for continuing to finish the sewer project. I also wish to praise all involved in finishing the project; Supervisor Bruce Gibson, the Contractors, the planners, Mr. Pavro Ogren, Waddell, our wonderful street people who have been so courteous and conscientious and finally the Supervisor Board for continuing the progress. We love the progress forward, we love the street improvements and lastly we are sick of the obstructionist who oppose this and make it so difficult for others to attend the LOCSD meetings because of their behaviors. Please, please, please, Los Osos is improving under the county management of this project. Continue the progress.</p> <p>Shirley Montague-Devine</p>

Comments or questions (8,192 characters max):	<p>Re: Los Osos Sewer Want to ask you all to support the LO Sewer project to final completion. I have to tell you that WA Rasic crews have been exceptionally efficient in doing the sewer mains and laterals on Mitchell Drive -- disturbing physically but very efficient in construction and polite and considerate for construction-locked residents. Highest regard for them. No leaning on shovels. They work hard, are efficient and don't waste time or money. (County crews might learn from that example) We've been residents of LO for 34 years and have been involved in the LO sewer for 31 of those. This needed to be done. Suggest you tell the pervasive opponents to the sewer to "get a life" and move on with theirs. You know who they are. Thanks to the County for taking this project on after the LOCSD screwed it up originally and defaulted on contracts already let and when the residents who</p>

opposed growth in LO before 1985 when the feds would have paid for 85% of it turned it down then. Yes, it is horribly expensive for the LO homeowners. The most expensive sewer project to date in the US. It will hurt a lot of fixed-income retirees, but we hope "the government", bless their pointed heads, will be able to help these folks out when push actually comes to shove on costs of the sewer. Enough! Please see this project through to completion and ASAP. Everyone's committed (whether we like it or not). The ultimate benefit is to Morro Bay and our groundwater resources (we hope). The latter is yet to be proven. Best, Gary Karner

Comments or questions (8,192 characters max):	<p>Supervisors...I notice that there a couple of important votes concerning the Los Osos sewer on the BOS Agenda for Jan. 28th. I urge you to follow the knowledgeable recommendations of your County staff members who have been working hard for years to bring this project to completion. How fitting it is that as I write this, at this very moment, the sewer lateral to our property is being installed. The crew members have been efficient but also very friendly and helpful. Our neighbors and the friends we have made in our 35 years in Los Osos all seem to share my sentiment that it is a great feeling to see that this sewer is really happening....Finally!! Please....no avoidable delays. Delay...in whatever form.... has been the big enemy in the forward progress of the Los Osos sewer over the decades (!!!!). Thank you....Alison Ball, Sewer Paying Homeowner</p>

Comments or questions (8,192	<p>Hello Board: Just a quick note to ask that you approve staff recommendations concerning the budget adjustments for the los Osos wastewater project. Please, let's keep this thing on track and get it finished in my lifetime. (I'm 55). Some quick thoughts: Fraaank! Oh Fraaank! I know you're busy with north county water issues, but I just wanted to remind you that there is an item concerning Los Osos on the agenda for tomorrow's meeting. Just saying. Supervisor Ray, I hope when you're walking that politically expedient placater's fence you seem to straddle, you can fall over on to the side of supporting this item, and the project on the whole. Sure you'll hear from the malcontents, but, you know, you can please some of the people some of the time, yada yada yada..... Supervisor Arnold, since I'm certain you'll once again perform your grandstanding dog and pony show tomorrow fawning over those who "took time out their busy day to come</p>

characters max):

here yada yada yada,” you might want to consider answering my e mail from a few weeks ago asking why you abstained from voting on the simple issue of board reorganization when it came up at the January 7, 2014 meeting. Just asking. Bruce, thank you for your tireless work on the LOWWP and your continued support in getting the project moving toward completion. (Even though I now have 700 square feet of unpaved loose sand in the front of my house I have no idea what to do with.) And I fully support the change to 2 minute public comments when necessary. Like tomorrow. Especially tomorrow. (: Adam, Los Osos thanks you for your support. And I thank you for being the breakwater against the tide of right-winged lunacy attempting to pound our shores. Stay vigilant, please. Thank you. Bill Riedemann Los Osos

Comments or questions (8,192 characters max):	We strongly support the completion of the sewer project in Los Osos. We totally understand cost overruns in projects of this size. We are so far along in the project at this point that it makes absolutely no sense to delay it. It has already been delayed far too long. Such a proposal is unrealistic and does not at all reflect the majority of us who live in Los Osos and support what it will do for our community and the environment here. David and Chip Selby
